power by expected % of district-level cases in trial population

power by expected % of district-level cases in trial population

power by expected % of district-level cases in trial population

power by expected % of district−level cases in trial population

power by expected % of district−level cases in trial population

power by expected % of district−level cases in trial population

power by expected % of district-level cases in trial population

power by expected % of district−level cases in trial population

permutation test over
Poisson GLM
no cluster effects

trial
- SWCT
- RCT
- FRCT

order
— random
-- risk−prioritized
··· simultaneous instant

power by expected % of district-level cases in trial population

permutation test over Poisson GLM with fixed effects by cluster

trial
- SWCT
- RCT
- FRCT

order
- —— random
- – – risk-prioritized
- ···· simultaneous instant
